

FUSION LEADER CIRCUIT

IGNITING PERFORMANCE AND OPPORTUNITY THROUGH CONNECTION

“THE RISING” LEADERSHIP DEVELOPMENT FOR WOMEN

Limited to 16 Participants (Senior Manager & Director Level, minimum of 10 years professional experience, only one leader per organization per FLC)

Fusion Leader Circuits (FLCs) ignite learning through neutral forums connecting leaders across industries and communities. Each FLC is designed to meet the unique learning needs of its participants. In a group-coaching format, FLC participants determine the session guidelines, structure, expectations and success factors. Prior to kickoff, participants complete pre-work and conduct a 1:1 session with Christie to identify desired learning outcomes.

FLCs provide peer learning opportunities and support based on the core development themes identified by participants. *Example focus areas: Leadership Presence, Leading Change, Influence, Strategic Agility, and Communication*

FLC PARTICIPANTS CAN EXPECT

FOCUS

Gain clarity on your learning agenda and development goals with dedicated time for reflection

LEARN

Expand thinking and develop strategies for real time business and leadership challenges

CONNECT

Broaden network and learning potential by participating with peers from various industries

IMPACT

Turn insights into actions to enhance leadership impact and accelerate performance within your organization

TESTIMONIAL

Fusion Leader Circuit is an inspirational learning experience! The experience provides a unique leadership development opportunity to learn from others across multiple industries. The program connects women leaders in a venue that creates insight, relationships and community. . I would highly recommend the FLC to senior leaders looking to expand their thinking and professional community! ~ Michele Herlein, CHRO Barge Waggoner Sumner Cannon
