EXECUTIVE DEVELOPMENT FOR WOMEN LEADERS

Women leaders add tremendous value to our organizations and communities – this is not just a “feel good” statement. The data supports this position:

- Companies with women in at least 50% of senior operating roles, on average, show a **19% higher** return on equity.
- The most gender diverse companies are **15% more likely** to have financial returns above their industry means.

Ultimately, women bring unique strengths and insights that, when combined with those of their colleagues, allow organizations to operate in ways that better represent the diverse make-up of the clients and communities in which they serve.

The research also shows that women leaders have unique development needs. Fusion Leader Circuit (FLC) was created to meet the learning requirements of women leaders within the Nashville area.

Organizations that recognize the need to better support Women in Leadership can also become a FLC Founding Member starting in 2019. *(Program began in 2017)

EXECUTIVE DEVELOPMENT FOR WOMEN LEADERS

*Limited to 18 Participants (only one leader per organization per FLC)
Minimum of 15 years experience and people leader*

Fusion Leader Circuits (FLCs) ignite learning through neutral forums connecting senior leaders across industries and communities. Each FLC is designed to meet the unique learning needs of its participants. In a group-coaching format, FLC participants determine the session guidelines, structure, expectations and success factors. Prior to kickoff, participants complete an intake form and conduct a 1:1 session with Christie to identify desired learning outcomes.

FLCs provide peer learning experiences and support based on the core development themes identified by participants. *Example focus areas: Executive Presence, Leading Change, Influence, Strategic Leadership and Communication*

FLC PARTICIPANTS CAN EXPECT
